About the Event

Reform Support Unit, Education and Literacy Department Government of Sindh, has taken initiative to build an arena to improve current education system. World Book Day is celebrated to infuse the reading habits in children, spread awareness about the benefits of reading books, how can they achieve their goals by developing such skills and to create a conducive environment

Venue: Education City

Contrary to the name of this area, there is a lack of educational activities and opportunities available for the children. RSU hopes to pave way for future events like the Book Day Festival to honor the Education City with its true purpose, to educate and impart knowledge

Program

- There will be three parallel sessions:
1. Classroom Sessions for Students
 2. Performances by Students/Results of Essay Competition
 3. Outdoor Activities for the Community
