## MESSAGE FROM MINISTER FOR EDUCATION

---

We take great pride in presenting Sindh's Government Schools Profile 2023-24, meticulously prepared to offer a comprehensive overview of school enrollment, infrastructure, and faculty for the benefit of stakeholders and the general public. The data collection process has been conducted with utmost care and precision, and subsequent analysis has been thorough. Recognizing the pivotal

role of data in informed decision-making, this profile serves as a valuable resource for developing future plans and strategies.

The Department of Education & Literacy remains steadfast in its commitment to enhancing the quality of education by fostering conducive learning environments. This includes ensuring schools are equipped with essential amenities such as classroom furniture, safe drinking water, washrooms, and boundary walls, as well as employing competent and dedicated teaching staff. The SEMIS Profile provides a valuable framework for guiding these efforts.

Moving forward, it is imperative for the department to prioritize the implementation of a decision support system that integrates multiple data sets. This approach will enable evidence-based policymaking, monitoring, and action, ensuring effective tracking of progress and outcomes. I urge the department to focus on this endeavor as we strive to continually improve our education system.

**Syed Sardar Ali Shah**  
Minister for Education  
Government of Sindh

## MESSAGE FROM SECRETARY FOR EDUCATION

---

I would like to extend my sincere congratulations to the School Education and Literacy Department, the Government of Sindh, and the Reform Support Unit (RSU) on the successful completion of the 32<sup>nd</sup> Annual School Census Profile. The meticulously crafted Sindh Public School's Profile by the RSU reflects our collective commitment to addressing the diverse challenges confronting the education

sector in our province. Despite recognizing the scale of these challenges, we have established a robust foundation for progress through comprehensive data collection and monitoring, now bolstered by technological integration.

Enhanced data collection correlates with improved governance, facilitating our pursuit of SDG-4 - ensuring quality and equitable education for all. This accomplishment owes much to the steadfast support of our development partners, the School Education and Literacy Department, and the RSU, whose collaborative efforts have yielded an inclusive and systematically structured report.

I encourage the department to leverage this wealth of data to drive tangible enhancements in the quality of education throughout Sindh. Through the implementation of effective policies and measures, we have the opportunity to catalyze positive transformations within our education system, thereby securing a brighter future for generations to come.

Rest assured, with our sustained commitment to initiatives of this nature and the formulation of appropriate policies, we can undoubtedly foster a lasting and constructive impact on our education system.

**Zahid Ali Abbasi**  
Secretary  
School Education & Literacy Department

## MESSAGE FROM CHIEF PROGRAM MANAGER - RSU

I take great pleasure in introducing Sindh's Government Schools Profile for the year 2023-24, which not only presents up-to-date data but also provides a simplified and easily accessible overview of information from the past decade. Our dedication to improving educational management and optimizing resource utilization is evident through the implementation of various reform

initiatives and policies this year.

The School Education & Literacy Department is resolutely addressing significant challenges related to access, quality, governance, monitoring, and resource utilization, guided by insights derived from data analysis. I express my sincere appreciation to both the Minister and Secretary of the department for their invaluable guidance, and extend thanks to all Directors and District Education Officers for their unwavering support. Furthermore, I commend the SEMIS team at RSU for their tireless efforts in collecting this data successfully.

This year, we have introduced a mobile application tailored specifically for the annual school census, featuring an offline mode to accommodate regions with limited internet access. This technological advancement ensures broader participation in data collection and consolidation, particularly in remote areas.

At RSU, we are committed to providing continuous cooperation and relevant assistance to all stakeholders. I am hopeful that this profile will serve as a valuable resource for making informed decisions aimed at improving the quality of education throughout the province of Sindh.

**Junaid Hameed Samo**  
Chief Program Manager  
Reform Support Unit

## MESSAGE FROM SENIOR PROGRAM MANAGER - SEMIS

It is with great pleasure that I welcome you to the annual school census profile for the public schools of Sindh for the year 2023-2024. This profile represents not just a collection of statistics, but a critical step in our ongoing efforts to improve the quality of education and ensure an environment that promotes quality learning for all students.

The data we collect in this census plays a pivotal role in our ability to understand the current educational landscape. Through the integration of technology in our data collection processes, we've been able to gather more accurate and timely

information. This empowers the School Education and Literacy Department to make informed decisions that directly impact the quality of education in Sindh. By utilizing advanced data analysis tools, we can now identify trends, address disparities, and allocate resources more effectively.

Our collective goal is to overcome major challenges in the education sector, including access to education, maintaining high-quality standards, ensuring good governance, effective monitoring, and judicious utilization of resources. The annual school census is key to achieving these objectives, providing the data-driven insights necessary to guide our strategic planning and policy development.

We use this data to ensure that no child is left behind, that resources are distributed equitably, and that our educational programs are effective in achieving their desired outcomes. It also helps us track the progress of our initiatives, identify areas needing improvement, and celebrate successes along the way.

I would like to take this opportunity to express my deep appreciation to the entire SEMIS team. Your dedication, teamwork, and commitment to excellence have been crucial in completing this complex task. The annual school census requires meticulous planning, coordinated fieldwork, and detailed data analysis, and each of you has played an indispensable role in this process. Thank you for your hard work, long hours, and dedication to the mission of SEMIS.

Additionally, I want to extend my sincere thanks to everyone who contributed to the success of the annual school census, from the enumerators collecting data at the schools, to the district team/LSUs processing and validating the information. Your collaboration and commitment to quality have made this possible.

As we move forward, let us use the insights gained from this census to continue our work in improving education in Sindh. By focusing on data-driven decision-making, we can ensure that our initiatives are effective, our resources are used wisely, and our students are given every opportunity to succeed.

**Together, we are shaping the future of education in Sindh.**

**Aftab Alam**

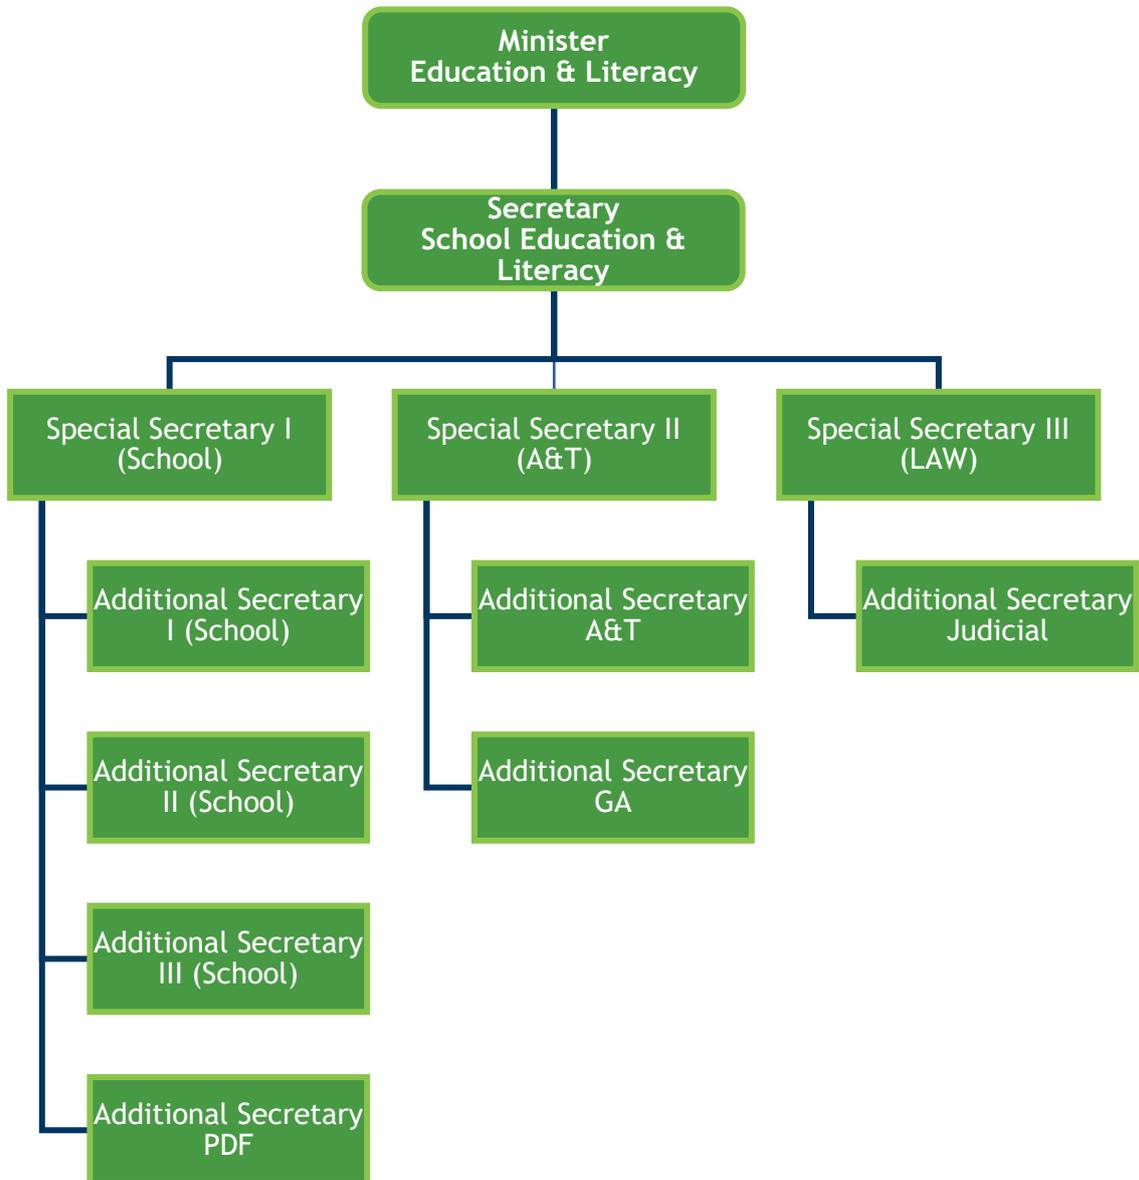

Senior Program Manager  
Reform Support Unit

# PREAMBLE

The goal of the School Education and Literacy Department (SELD) is to ensure that all children and youth in Sindh have equitable access to quality education. This access allows them to reach their fullest potential and make meaningful contributions to society and the economy. The department also seeks to promote a sense of national identity, encouraging values of tolerance, social justice, and democracy.

SELD is committed to improving its services by building capacity at all levels, establishing robust governance systems, and integrating technology to achieve better educational outcomes at the grassroots level. It aims to expand access to quality early childhood care and education, as well as primary and secondary education, to foster social cohesion and provide more learning opportunities, particularly for marginalized groups such as girls and women. SELD also focuses on promoting 21st-century skills and fostering participation among its students.

To achieve these objectives, SELD is enhancing teaching and learning practices through innovative approaches and building a centralized governance system to streamline service delivery and boost efficiency across the board.

# PREAMBLE

## ALLIED INSTITUTIONS / AGENCIES

# PREAMBLE

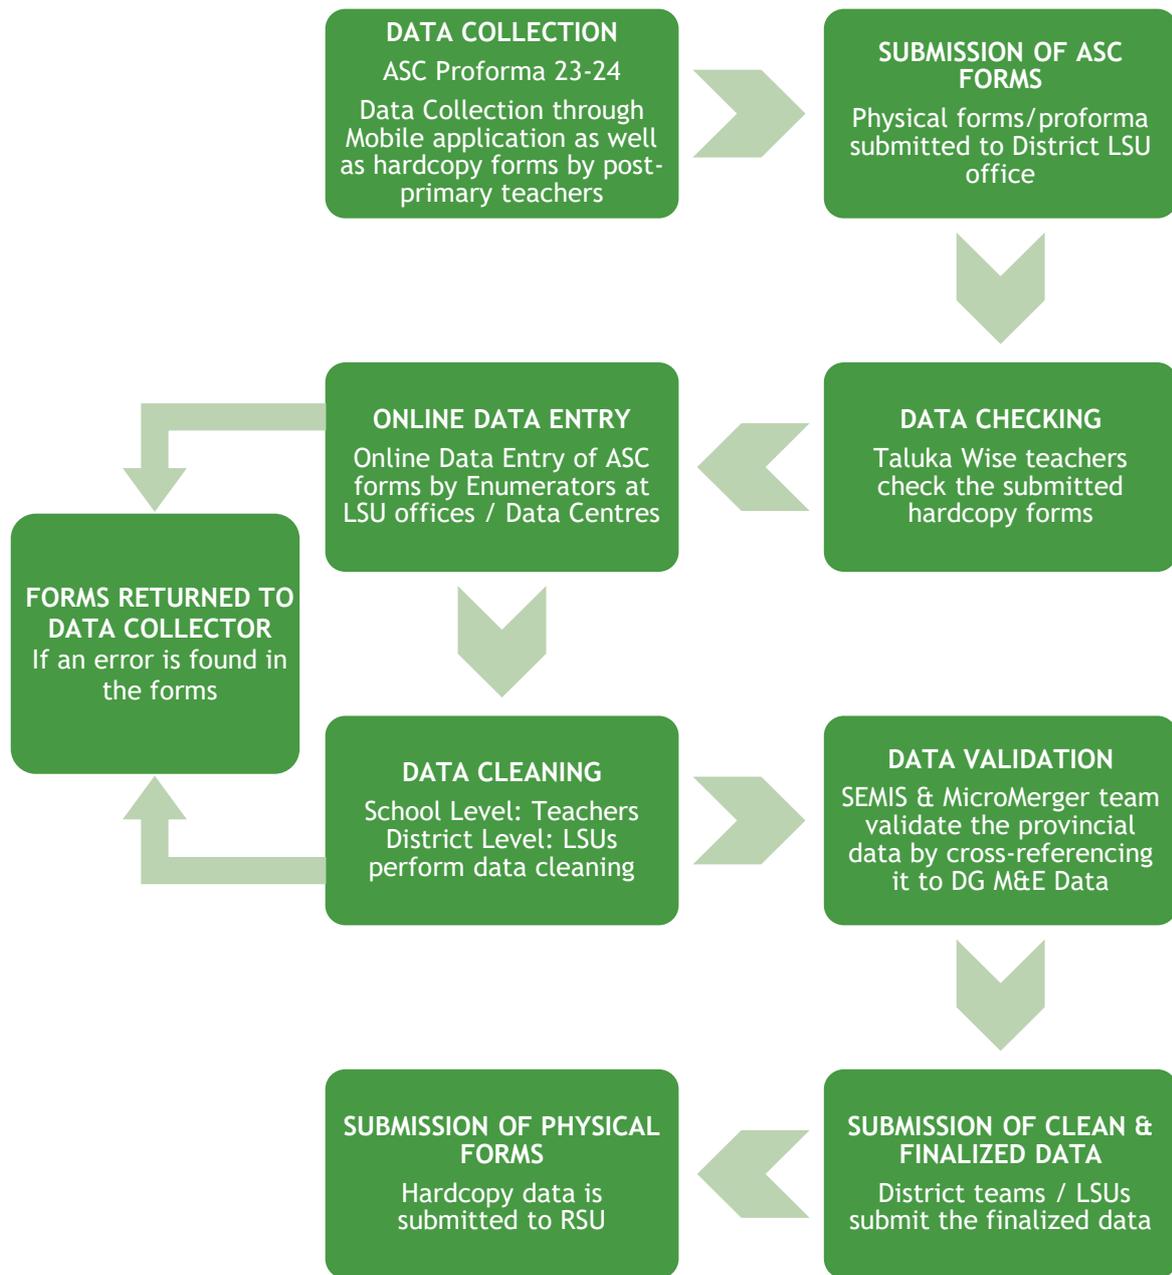

## SINDH EDUCATION MANAGEMENT INFORMATION SYSTEM (SEMIS)

The Sindh Education Management Information System (SEMIS) was established in 1991, taking over from the National Education Management Information System (NEMIS). SEMIS is responsible for providing all the necessary information to support the School Education and Literacy Department's management, planning, and decision-making processes. This information is crucial for driving key initiatives within the department.

SEMIS collects data from public schools through a structured questionnaire that focuses on aspects like physical infrastructure, student enrollment, and human resources. The data collection is carried out annually, with October 31st as the reference date. Once gathered, the information is compiled and shared with researchers, planners, administrators, policymakers, and development partners to aid in effective planning and implementation.

# PROCESS FLOW OF ASC 23-24

# UTILIZATION OF ANNUAL SCHOOL CENSUS DATA

## MONITORING & EVALUATION

The School Education and Literacy Department has established the Directorate of Monitoring and Evaluation to oversee teacher attendance and other key school metrics. The M&E department tracks student enrollment, infrastructure, and teacher presence to ensure schools meet required standards.

## GIRL'S STIPEND

The Government of Sindh started a stipend distribution program for girls in 2001-2002 under the Sindh Structural Adjustment Credit (SAAC). The Reform Support Unit took over this responsibility in 2005. Initially, stipends were sent via money orders. However, the system has evolved, and now stipends are distributed through a biometric-enabled branchless banking system, ensuring transparency.

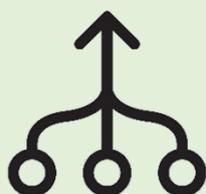

## SCHOOL MANAGEMENT COMMITTEE

SMCs are formed in every major and functional school to promote community ownership in school development. These committees are responsible for utilizing funds for repairs, maintenance, transportation, and cleanliness.

## HUMAN RESOURCE MANAGEMENT INFORMATION SYSTEM

HR-MIS Wing creates and updates human resources information at provincial level which consists of a central online database of all employees/teachers working in schools of Sindh. It not only provides an HR application system but also ensures a new comprehensive and integrated approach in the management of human resources in public services through the advanced digitalization of modern age.

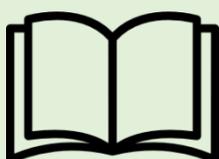

## SCHOOL CONSOLIDATION

To optimize government school resources, the School Education and Literacy Department has implemented a school consolidation policy. Under this approach, consolidated schools operate as campus schools, which can include adjoining schools, schools on the same premises, or schools within a specific distance.

## SINDH SCHOOL MONITORING SYSTEM

The School Education and Literacy Department is continually improving SSMS by increasing the reach of school monitors and enhancing the application to ensure real-time data accuracy.

## FREE TEXTBOOK

Each year, the government distributes free textbooks to public schools. Initially, only primary school students received free textbooks, but since 2006, the program has expanded to cover classes from Katchi through class X.

# ADDRESSING KEY POLICY QUESTIONS

## IS ENROLLMENT IN SCHOOLS INCREASING?

TIME TREND OF ENROLLMENT

The School Education and Literacy Department remains steadfast in its dedication to the enrollment campaign, aimed at reintegrating out-of-school children into educational institutions across the province. This initiative reflects the ongoing commitment of the Sindh government to the broader vision of the Pakistan government's pledge to the global "Education for All" movement.

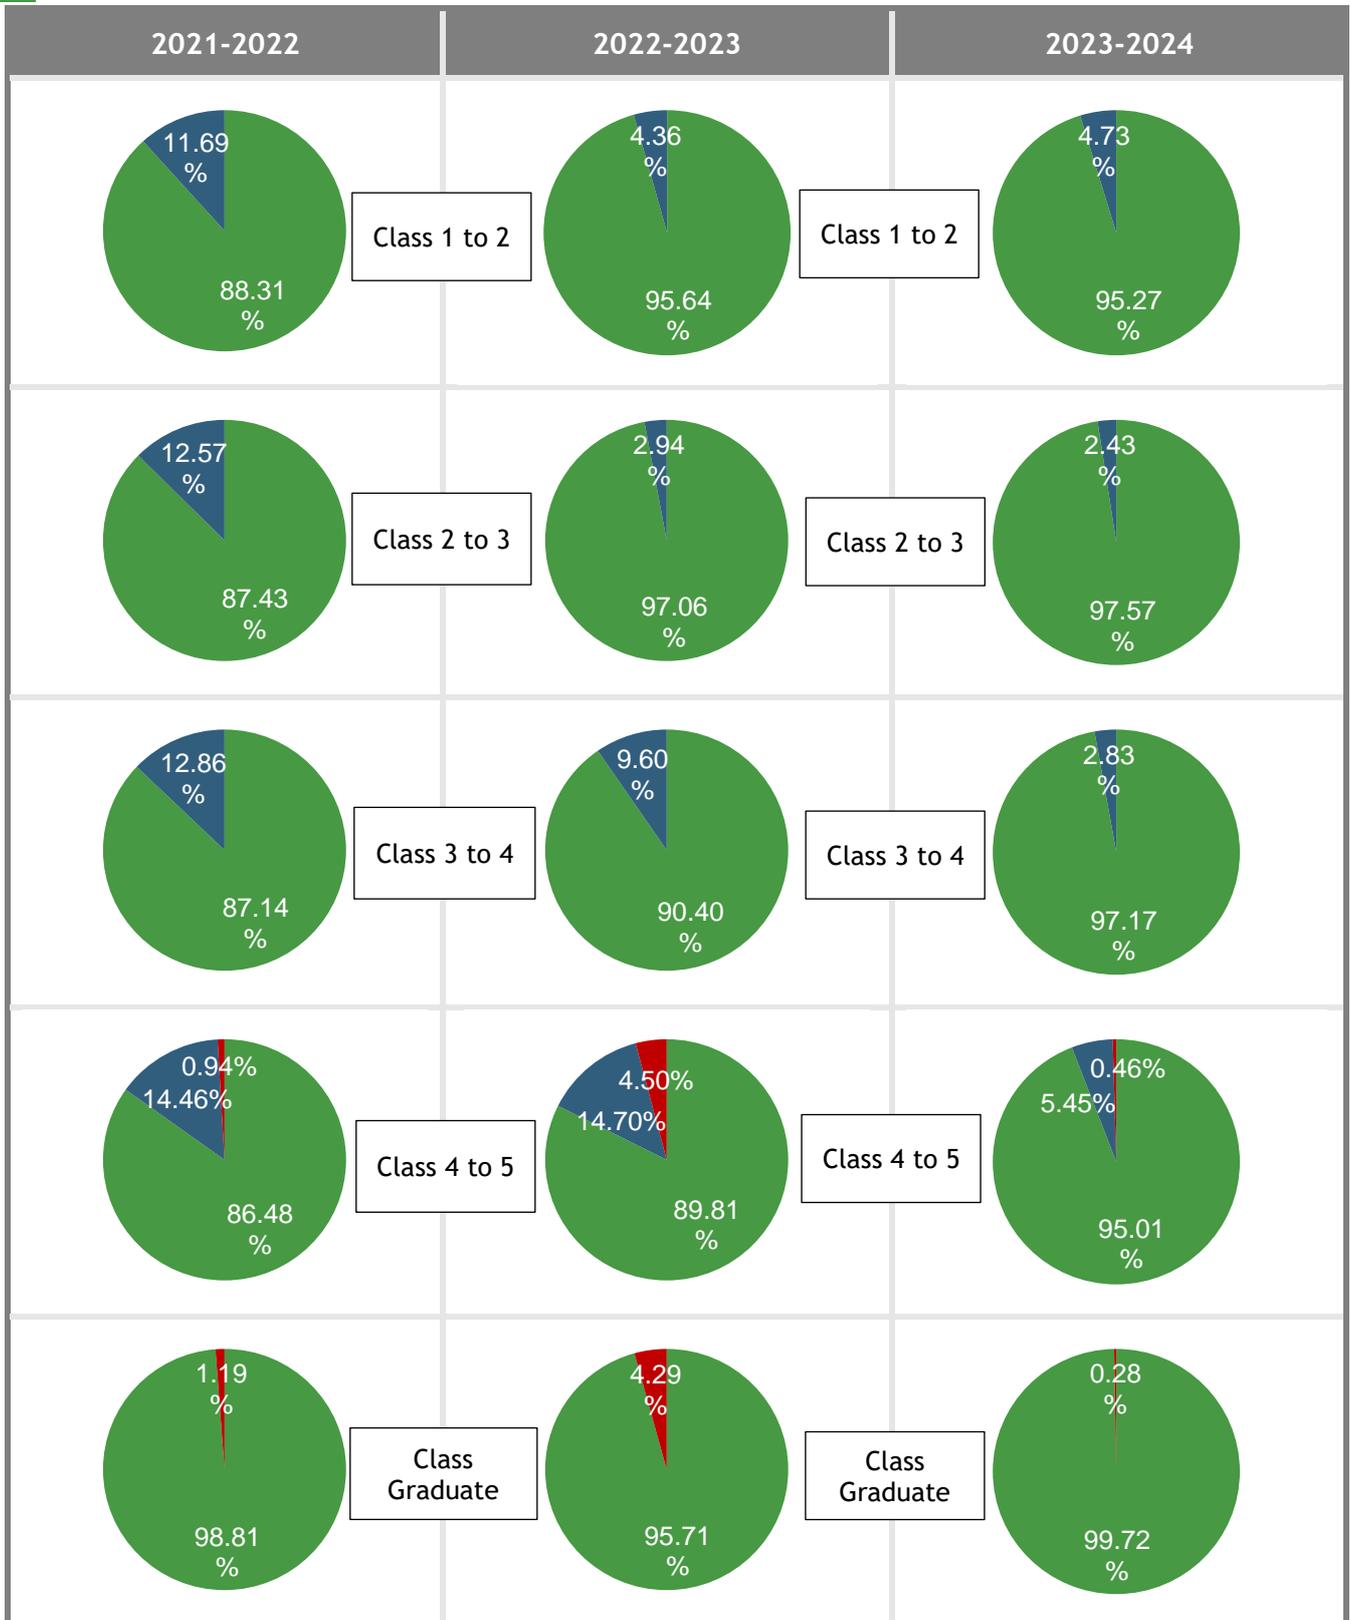

Aligned with the principles of the "Education for All" declaration, these efforts prioritize achieving gender equality in education provision and ensuring equitable opportunities for all children, adolescents, and adults to access high-quality education.

Central to this commitment is the creation of conducive and nurturing learning environments within schools, with the aim of both attracting students to enroll and ensuring their continued attendance, thus mitigating the risk of dropouts.

## HOW MANY SCHOOLS HAVE BEEN CONSOLIDATED?

The School Consolidation Policy in Sindh, Pakistan, is a strategic initiative developed by the Sindh Education and Literacy Department to enhance the quality and efficiency of the education system. This policy involves merging smaller, under-resourced schools into larger, well-equipped institutions, creating a more robust learning environment. By consolidating schools, the initiative aims to optimize resources, improve educational standards, and offer enhanced facilities for both students and teachers.

Under the policy, consolidated schools operate as campus schools, effectively functioning as a single educational entity. This approach encompasses three types of school mergers: adjoining schools, embedded or same-premise schools, and schools located within a specified distance from one another.
